

## 5 Items That Are the Basis for a Secure Environment for Your Cat

1. **Food**- Predictable meal times and individual bowls for each cat

2. **Water**- Clean fresh water in a location that appeals to your cat

3. **Toilet**- A convenient clean private litter box should be available for each cat. An ideal sized one is one and a half times the length of their body and at least one and a half inches deep.

4. **Safe Place to Sleep**- Soft bedding in an area with familiar smells and sounds.

5. **Familiar Territory** – Face rubbing and scratching surfaces mark their territory. Be sure to use plenty of scratching posts.
